ii. Executive Summary of the Annual PHA Plan

[24 CFR Part 903.7 9 (r)]

Provide a brief overview of the information in the Annual Plan, including highlights of major initiatives and discretionary policies the PHA has included in the Annual Plan.

The Trenton Housing Authority (THA) came under new interim management in August, 2000. After a thorough assessment, management has determined that the primary objective for the year 2001 will be to address the findings and recommendations of the Limited Management Review, conducted by the HUD field office in April, 2000, and the findings of the REAC physical inspection report for fiscal year 1999. Several key initiatives will be implemented to assure that the key management and physical inspection discrepancies are addressed:

1. Organizational restructuring to better utilizes personnel and assure accountability.
2. Installation of a comprehensive computer network that adequately addresses all THA management functions.
3. Increased training opportunities for staff to assure familiarity and competency with federal, state, local and Authority policies and procedures.
4. Revision of Capital Fund to more efficiently address identified management and facility related discrepancies.
5. Updating of THA policies and procedures updating to assure compliance with HUD directives

6. Implementation of a new Resident Services Department to facilitate more comprehensive resident participation in the management process.
7. Improved cooperative relationships with local government, law enforcement, and social agencies to maximize the efficient and prudent utilization of available resources for mission success.

Additionally, the Trenton Housing Authority (THA), in partnership with the City of Trenton, will work to reduce the City's extensive housing need by making existing vacant units and houses throughout the City available for rent or purchase. THA's specific goal will be to expeditiously fill existing vacancies, complete modernization projects at Miller and Wilson Homes, and leverage funding to procure scattered site housing throughout the City.

Finally, in an effort to improve the quality of life for public housing residents, THA will establish partnerships with government and private local agencies to assist residents in finding and maintaining suitable employment and other economic development opportunities to enhance self-sufficiency.

Management is confident that the goals and objectives delineated in this annual plan will enable THA to address those concerns that inhibit the provision of safe and decent housing and resident selfdevelopment.

As a result of successful collaborations with several social services organizations, recreational, social, educational, and self-sufficiency components of the drug elimination strategy are now being provided on-site utilizing existing funding. Subsequently, THA will be able to maintain and in some instances enhance the physical security presence with this funding request.

Section 2: PHDEP Plan Goals and Budget

A. PHDEP Plan Summary

In the space below, summarize the PHDEP strategy to address the needs of the target population/target area(s). Your summary should briefly identify: the broad goals and objectives, the role of plan partners, and your system or process for monitoring and evaluating PHDEP-funded activities. This summary should not exceed 5-10 sentences.

With the completion of CGP funded site improvements, former “openair” developments have been secured (via fencing) to create defensible space. The need for a physical security presence is crucial to monitor the reduced points of ingress and egress at each site. Vehicle registrations are presently in progress. It is anticipated that every tenant owned vehicle will have identification labels by the summer of 2001. Vehicle registrations and security guard monitoring will greatly reduce vehicular drug trafficking and incidences of abandoned vehicles on THA property.

Drug Prevention efforts will continue to be funding with existing FY99 and FY2000 PHDEP funding.
